**A National Webinar on  
"Green Energy and Sustainable Development"  
May 10<sup>th</sup> to 15<sup>th</sup> 2021  
Organized by  
Internal Quality Assurance Cell of the College & Faculty of Science**

Energy demands are increasing enormously. Our dependence on fossil fuels has not only depleted their reserves but also has caused negative environmental impacts. To keep pace with the development, it is necessary to restructure the energy sectors. Green energy appears to be the most efficient and effective solution for the sustainable development, so that along with socio economic development we can bring a curb to the catastrophes caused to climate. This lecture series has been planned to provide a multifaceted perception on renewable energy resources and their role in climate mitigation.
